An Innovative, Online Degree Program for the Nation’s Best Nurses

OVERVIEW

The Simmons School of Nursing and Health and Sciences (SNHS) is dedicated to preparing expert clinicians. With a campus located in the renowned Longwood Medical Area of Boston, Massachusetts, SNHS serves as a prominent nursing school in the New England region and is recognized as an innovator in health care education.

Designed for licensed Registered Nurses (RNs), Nursing@Simmons delivers SNHS’s renowned nursing degree programs through a state-of-the-art online learning platform. Featuring two degree options for RNs at different stages in their careers, Nursing@Simmons uses cutting-edge technology to help nurses earn their degree without relocating to Simmons’s campus in Boston.

DEGREE OPTIONS

RN to MSN – Family Nurse Practitioner: This Master of Science in Nursing (MSN) program enables RNs who do not hold a bachelor’s degree, to earn their graduate nursing degree. The rigorous curriculum focuses on developing the primary care and leadership skills RNs need to pursue a career as a Family Nurse Practitioner.

MSN – Family Nurse Practitioner: Designed for RNs who already hold a bachelor’s degree, this Master of Science in Nursing program features the same curriculum and faculty that have prepared 100 percent of Simmons’s graduates to pass the Family Nurse Practitioner certification exam on their first attempt. This program enables nurses to gain the clinical skills and knowledge they need to treat patients in a primary care role.
**Nursing@Simmons Student Experience**

**LIVE CLASSES**

Nursing@Simmons uses a cutting-edge online learning platform to deliver live, face-to-face, weekly classes. Students collaborate in an interactive virtual classroom with accomplished peers from around the country and expert faculty who are active clinical practitioners.

**IMMERSIVE COURSEWORK**

Simmons faculty works with a team of content developers to turn their traditional lessons into interactive multimedia assignments. Course content is self-paced and accessible 24/7 to fit into students’ busy schedules. Students can download coursework to a mobile device so they can view it offline from wherever they are.

**CLINICAL PLACEMENT**

Our dedicated Nursing@Simmons Clinical Placement team works directly with students to locate a placement site near their own community. Each student works one-on-one with a certified preceptor.

**SOCIAL ENGAGEMENT**

Through familiar social networking channels, social groups, and interactive discussions, students develop lasting relationships and gain valuable professional connections. Upon graduation, Nursing@Simmons students have the opportunity to join their colleagues in Boston for commencement where they can walk across stage to receive their degree.

**SUPPORT**

Nursing@Simmons offers dedicated support services beginning the moment candidates request information about the program. Admissions Counselors assist students through the application process; our Student Support team provides academic and technical guidance; professors work with students one-on-one; and our alumni association provides resources and networking opportunities throughout a graduate’s career.
